Energy, Water & Climate Change in the Mediterranean & the Middle East

The conference will be held under the patronage of the President of the Republic of Cyprus,
H.E. Demetris Christofias.

The conference goals are:

- To discuss the state-of-knowledge of climate change challenges;
- To set the stage for cooperative strategies to cope with climate change impacts;
- To discuss energy and water policies and evaluate new concepts;
- To consider sustainable strategies and effective decision making.
